Report Summary

This report summarizes the enrollment by academic degree program of students at the specified VSC college on October 15th, the official Fall reporting date, of 2013. Unlike the Enrollment by Headcount reports that count each student enrolled in at least one credit bearing class at the institution, this report counts all students who have an academic program at the college even if they are enrolled exclusively at another VSC institution. Additionally, it does not count students who have an academic program at another institution but are taking one or more classes at this college. Thus the headcount in this report may vary slightly from the Official Headcount Report for the same date.

Additionally, the headcount of students with a particular major, and columns that follow are based only on the current "best program" for the student. The numbers include only one degree and one major per student. The column on the far right indicates the number of students pursuing a second award in the indicated major.

Definitions

Headcount: Headcount in this report is based on the number of students matriculated at the specified VSC college, whether or not they are enrolled at the same college. Each student enrolled in one or more credit-bearing courses at the particular college, at the specified time during the semester, counts as one headcount for the college. Students who are matriculated at another VSC school, and are enrolled at the given college are included in the count. Students who are matriculated at the particular school but are attending a different VSC school are not included in this count. It is understood that a student may be counted more than once system-wide if they are attending more than one school in a

given semester.

Full-time: Any student registered for greater than or equal to the full-time credit load for a college and academic level is considered full-time. For students enrolled at more than one VSC college all of their credits are considered in the calculation of credit load. Full-time credit load depends on the academic level of the student. Generally 12 credits is considered full-time at the undergraduate level while 9 credits is considered full-time at the graduate level.

Part-Time: Any student registered for less than the full-time credit load for a college and academic level is considered part-time. For students enrolled at more than one VSC college all of their credits are considered in the calculation of credit load. A part-time credit load depends on the academic level of the student. Undergraduate students taking less than 12 credits, and graduate students taking less than 9 credits are considered to be enrolled part time.

In-State: Any student (graduate or undergraduate) identified as a Vermont resident for the purposes of admission. It is expected that the residency status of a student remains as it was when the student was admitted to the college, unless the student appeals for a change in status. For non-matriculated students, those who establish that they are Vermont residents according to definitions set by the business office are considered to be in-state students.

Out-of-State: Any student (graduate or undergraduate) identified as a non-Vermont resident, for the purposes of admission. For non-matriculated students, out-of-state students are those who reside outside Vermont, or who have not lived in Vermont long enough to establish residency according to the college definition.

FTE: Full-time equivalency figures are derived by counting 1 for all students enrolled on a full-time basis (12 credits or more for undergraduates and 9 credits or more for graduates) and then taking the student credit hours for all part time students and determining the number of full time students it would take to generate that number of student credit hours. Total part-time undergraduate credit hours are divided by 12, while total part-time graduate credit hours are divided by 9. For students with a particular major who are enrolled at more than one VSC college in the given semester, all of their enrolled credits are used in the FTE calculation at the college where they are matriculated.

Matriculated: A matriculated student is one who has formally applied and been accepted to a VSC college and is working toward a particular degree or certificate. Students must be matriculated to apply for financial aid, to be eligible for scholarships, to be assigned an advisor and to be awarded a degree or diploma. Non-matriculated students are those who are just taking courses for personal enrichment or are trying out college before applying for admission.
