Report Summary

This report contains a headcount of all students enrolled at each of the VSC schools as of October 15, 2012. Students who are taking classes at more than one VSC institution are included in the headcounts of both colleges. The total VSC number of students in each category are unduplicated counts, meaning that students who attended more than one VSC college will only be counted once in the VSC total. Students enrolled at more than one college additionally may have been a part time student at each college, but when total load is considered they become full time students. In addition, students taking both graduate and undergraduate classes may still be included both the VSC graduate and undergraduate counts, yet at the bottom of the sheet they are only counted once. Thus many of the totals in the VSC column on the far right appear to be in error. The VSC bottom line with total in-state, total out-of state, and total students is a correct unduplicated count.

Definitions

In-State Student: Any student (graduate or undergraduate) identified as a Vermont resident for the purposes of admissions. It is expected that the residency status of a student remains as it was when the student was admitted to the college, unless the student appeals for a change in status. For non-matriculated students, those who establish that they are Vermont residents according to definitions set by the business office are considered to be in-state students.

Out-of-State Student: Any student (graduate or undergraduate) identified as a non-Vermont resident, for the purposes of admissions. For non-matriculated students, out-of-state students are those who reside outside Vermont, or who have not lived in Vermont long enough to establish residency according to the college definition.

Full-time Student: Undergraduate students are considered to be full-time when they have a course load of 12 or more credits. Graduate students are full-time when they take 9 or more credits.

Part-time Student: Undergraduate student are part time students if they are taking fewer than 12 credits. Graduate students are part time when they take fewer than 9 credits.

Headcount: Each student enrolled in one or more credit-bearing courses at the particular college, at the specified time during the semester, counts as one headcount for the college. Students who are matriculated at another VSC school, and are enrolled at the given college are included in the count. Students who are matriculated at the particular school but are attending a different VSC school are not included in this count. It is understood that a student may be counted more than once system-wide if they are attending more than one school in a given semester.

Student Credit Hours (SCH): Student credit hours are a measure of enrollment and instructional activity that is calculated by multiplying the number of students enrolled in a course by the number of credit hours that will be earned upon completion of the course. Student credit hours are calculated for individual courses, for courses taught by individual faculty members, for all courses taught within a department, or for all courses taught within a particular semester, and are used to compare the level of productivity with other instructors, departments or colleges.

FTE (Full-Time Equivalent): Full-time equivalency figures are derived by counting 1 for all students enrolled on a full-time basis (12 credits or more for undergraduates and 9 credits or more for graduates) and then taking the student credit hours for all part time students and determining the number of full time students it would take to generate that number of student credit hours. Total part-time undergraduate credit hours are divided by 12, while total part-time graduate credit hours are divided by 9.

Data Extraction Date: Evening of October 15, 2012
