

# Vermont High School Student PathWAYS

Four ways to get started on college while still in high school.

**College courses for high school juniors and seniors.**

## DUAL ENROLLMENT

Vermont high school juniors and seniors can take two college courses tuition free at any of the five Vermont State Colleges: Castleton University, Community College of Vermont, Northern Vermont University–Johnson, Northern Vermont University–Lyndon, and Vermont Technical College.

**College credit for tech center students.**

## FAST FORWARD

Vermont high school students enrolled in selected partner programs at their local career/technical center are eligible for Fast Forward Tickets. The tickets let students earn college credit for one or more courses for \$100 each and two courses tuition free.

**College readiness for high school students.**

## INTRODUCTION TO COLLEGE STUDIES

This 26-hour, tuition-free course is designed to help high school students develop strategies for college success. The course is offered at all 12 Community College of Vermont academic centers, at other VSC colleges, and in select high schools and technical centers.

**Spend your senior year of high school at a Vermont State College!**

## EARLY COLLEGE

Each of the Vermont State Colleges hosts this full-year alternative to the senior year in high school. Students take standard college courses to complete their senior year of high school and their freshman year of college simultaneously—tuition free. Vermont Technical College hosts the Vermont Academy of Science and Technology (VAST), for students who have a strong academic record and are interested in math, science, and technology.

**I'm interested!  
What should I do next?**

Speak with your high school counselor or contact a Vermont State College near you.
