VERMONT STATE COLLEGES

1993-1994

I. COLLEGE INFORMATION

The Vermont State Colleges (VSC) is a public corporation established by Vermont State Statutes in 1961, 16 V.S.A., Chapter 72. Three senior institutions, Castleton State College (CSC), Johnson State College (JSC), and Lyndon State College (LSC) offer programs leading to degrees at three levels: Associate, Bachelors and Masters. Community College of Vermont (CCV) and Vermont Technical College (VTC) offer the Associate degree, and VTC has recently added a bachelor's degree program in architectural engineering technology. The map on the back cover illustrates the locations for each campus and the major sites through which services are offered.

This <u>Fact Book</u> highlights important characteristics of each institution as well as the major educational activities of the VSC as a system. Except where noted, all numbers listed are for Fall 1993.

A. <u>Castleton State College</u>

Founded	1787
Location	Castleton, Rutland County
Campus Size	27 Buildings on 130 Acres
Enrolled Students	2,067
1993 Graduates	407

ASSESSMENT OF PRIOR LEARNING PROGRAM

The Assessment of Prior Learning Program evaluates experientially-acquired, college-level learning for college credit. The award is based on a portfolio of prior learning containing documentation which substantiates the credit request. The process of portfolio preparation is accomplished in a course entitled "Educational Assessment and Portfolio Preparation." This course is offered at Castleton, Johnson and Lyndon State Colleges, Burlington College, and the twelve CCV sites throughout the state each year. Enrollment data appear below.

III. STUDENT INFORMATION

This section contains information about the number and types of students attending the Vermont State Colleges. The following definitions apply to this information:

- a) <u>Headcount</u> The actual number of students enrolled for credit coursework at a college.
- b) <u>Part-time</u> (PT) An undergraduate student enrolled for fewer than 12 credit hours of coursework in a semester, or a graduate student enrolled for fewer than 9 credit hours of coursework.
- c) <u>Full-time</u> (FT) An undergraduate student enrolled for 12 or more credit hours of coursework in a semester, or a graduate student enrolled for 9 or more credit hours of coursework.
- d) <u>Full-time Equivalent</u> (FTE) For undergraduates, total student credit hours divided by 15. For graduate students, total student credit hours divided by 12.

NON-TRADITIONAL STUDENTS

The Vermont State Colleges serves a large number of students who are older than traditional undergraduates (18 to 22 years of age) and traditional graduate students (21 to 26 years of age) The following tables show the proportion of "non-traditional" students at each college among full-time undergraduates, part-time undergraduates, and graduate students.

PERCENT FULL-TIME UNDERGRADUATES

¹ Data shown for faculty member beginning VSC employment in FY83.

² Total VSC compensation in FY'93 equaled 135% of salary. AAUP IIB Public total compensation equaled 127% of salary. VSC total does not include value of early retirement program.

V. STUDENT FINANCIAL AID INFORMATION

Financial aid has become increasingly important in helping students meet their college expenses. Financial aid consists of grants or scholarships which do not have to be paid back, wages for work performed through a college program, and loans which must be paid back with interest.

Each college maintains a financial aid office to advise students, to evaluate applications, and to manage federal, state, and institutional aid programs. In order to qualify for financial aid, a student must be considered to have financial need.

College costs - student and/or family contribution = Financial need

Federal and state financial aid programs contribute over 96% of all financial aid received by VSC students. The following information includes actual financial aid disbursements and expenditures for the 1992-93 college year.

A. Federal Programs

1. Pell Grants

Grants from federal funds, with eligibility determined by a standard formula established by Congress. A Pell Grant is for an undergraduate with a low family income who has not earned a bachelor's or professional degree. In 1992-93 the maximum award was \$2,400.

2. Supplemental Educational Opportunity Grants (SEOG)

Grants from federal funds, administered by the College, for undergraduate students with exceptional financial need. Priority is given to Pell Grant recipients. In 1992-93 SEOG Grants ranged from \$100 to \$4,000 per year. SEOG Grants were funded 85% from federal dollars and 15% from institutional sources in 1992-93.

3. College Workstudy (CWS)

The College Work Study program provides jobs for undergraduate and graduate students who need financial aid. Students are paid at least the current federal minimum wage. College Work Study jobs may be either on or off campus, and may be with a private non-profit organization, or a local, state, or federal public agency, where the work performed is in the public interest. CWS was funded 70% from federal dollars and 30% from institutional sources in 1992-93.

4. Perkins Loans

Low interest loans (5%) from federal funds, administered by the college. These loans are for both undergraduate and graduate students with exceptional financial need. Loan amounts vary depending on the student's year in school and the amount of revolving loan funds available to the school.

5. Nursing Loans

Low interest loans from federal funds, administered by the college. These loans are for undergraduate and graduate students enrolled in a Health Professions program. Loan amounts may vary depending on the amount of revolving loan funds available to the school.

6. Stafford Loans

Loans for undergraduates and graduate students, federally subsidized and unsubsidized, obtained from a lender such as a bank or credit union, and issued by a guarantee agency. The interest rate is variable, but not higher than 9%. For 1992-93 the actual interest rate was 6.94%. Students who have a documented financial need are eligible for the subsidized Stafford loan -- the federal government pays the interest while the student is in school. Students who do not have a documented financial need are eligible for the unsubsidized Stafford loan -- the student is responsible for the interest during the in-school period. Loan amounts vary depending on the student's year in school. These loans range from \$2,625 for a first year student to \$8,500 for a graduate student.

7. PLUS and SLS Loans

Loans with variable interest rates, adjusted each year, but not higher than 10% for PLUS and 11% for SLS. For 1992-93 the actual interest rate for both PLUS and SLS was 7.36%. These loans provide additional funds for educational expenses and, like Stafford Loans, are made by a lender such as a bank or credit union.

PLUS loans (Parent Loans for Undergraduate Students) are for parents who want to borrow funds to help pay for their children's education.

SLS loans (Supplemental Loans for Students) are for graduate, professional or independent undergraduate students who need to borrow additional funds for educational expenses.

Under the SLS program the student can borrow up to \$4,000 for the first and second years of undergraduate study, \$5,000 for the third and fourth years of undergraduate study, and \$10,000 for each year of graduate study.

B. State Programs

1. <u>In-State</u>

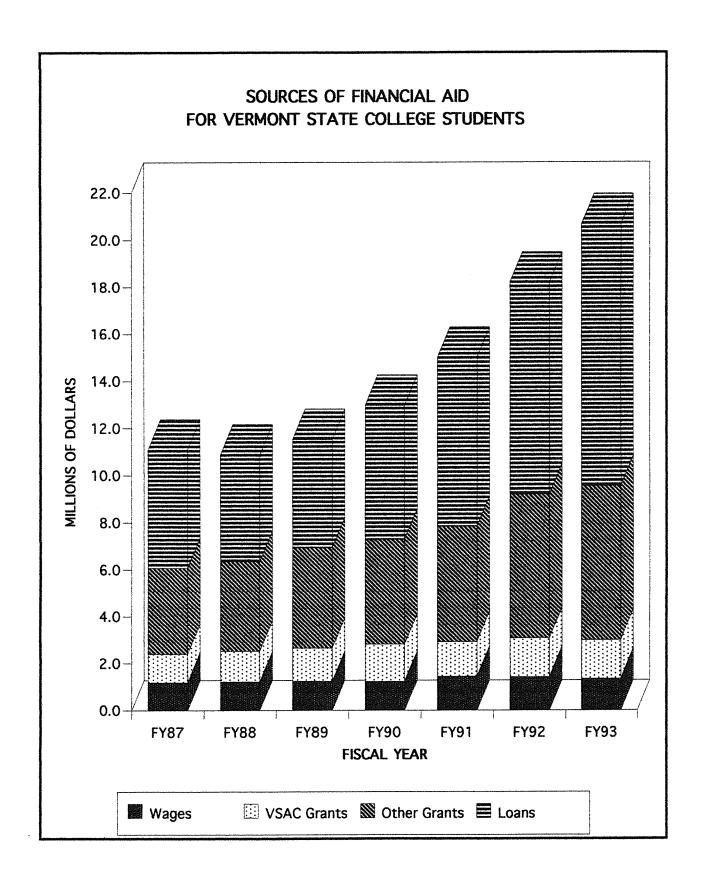

Grants awarded by the State of Vermont through Vermont Student Assistance Corporation to Vermont students. These grants are funded from annual state appropriations and for FY1992 ranged from \$75 to \$3,300. For full-time students, the amount of the grant is determined by subtracting the Pell grant, if any, and the calculated family contribution from the maximum allowable grant of \$3,300.

2. Out-of-State

Grants awarded by some other states to their residents who attend a Vermont state college. Amounts vary depending on each state's criteria.

C. <u>Institutional/Private Programs</u>

Less than four percent of all financial aid awarded to VSC students is provided by VSC and private grants. VSC grants include endowed scholarship funds, as well as gifts to the colleges for financial aid. Private grants are awarded directly to VSC students by service clubs, foundations, and organizations.

VII VSC OUTREACH

A. SOUTHERN VERMONT EDUCATION CENTER

With the support of the Vermont General Assembly, the Vermont State Colleges established the Southern Vermont Education Center in Springfield in January 1989. The purpose of the Center is to coordinate and deliver to the region higher education programs sponsored by the five VSC institutions, as well as other public and private institutions. The priority is on programs for adult learners and career and employment-related educational services.

Almost half of the individuals served through the Center participate in employer-based training programs such as marketing workshops, supervisory training, and customer service training. A large number enroll in courses for professional and graduate education, and baccalaureate education. Additionally, many residents of the region participate in non-credit courses, workshops, and meetings at the Center, many offered at the studio/classroom of Vermont Interactive Television which is located at the Center.

In the Fall of 1992 service was extended to Windham County. In collaboration with Vermont Interactive Television, programs and services are now available in Brattleboro at the Vermont Agicultural Business Education Center.

B. VERMONT INTERACTIVE TELEVISION

Vermont Interactive Television (VIT) is a two-way audio and video distance learning and videoconferencing system. VIT operates in nine communities around the state: Bennington, Brattleboro, Newport, Randolph Center, Rutland, St. Johnsbury, South Burlington, Springfield, and Waterbury.

The purpose of VIT is to extend educational and training programs to underserved areas of the state, and to enhance communications for many educational, business, and government organizations. VIT provides a cost-effective way for state agencies, businesses and other statewide organizations to conduct business and disseminate information. VIT is also used to hold public hearings statewide.

VIT has been developed and funded by a partnership of local, state and federal funds and the collaborative efforts of education, government, and business. VIT also generates revenues via the hourly rates it charges users of the system. At the State's request, VIT is managed by the Vermont State Colleges, and is advised by a seven-member Coordinating Council appointed by the Governor.

During FY 1993, over 4,000 people attended courses, seminars, training sessions and meetings held on VIT. Close to 2,800 hours of programming occured during 1993.

B. <u>VERMONT INTERACTIVE TELEVISION</u> (cont.)

Annual state appropriations have been:

FY 1989	\$365,000
FY 1990	\$353,375
FY 1991	\$355,000
FY 1992	\$344,136
FY 1993	\$338,840
FY 1994	\$450,800

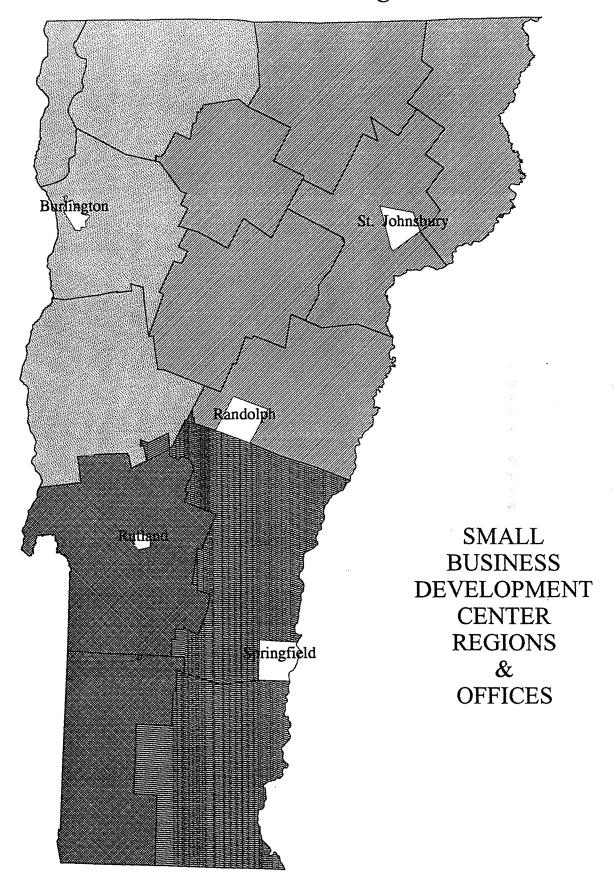

C. SMALL BUSINESS DEVELOPMENT CENTER

The purpose of the Vermont Small Business Development Center (SBDC) is to improve the economic climate in Vermont through the promotion and development of small businesses, and by providing management assistance to Vermont's small business persons. The Vermont State Colleges became the host organization for the SBDC in October of 1992.

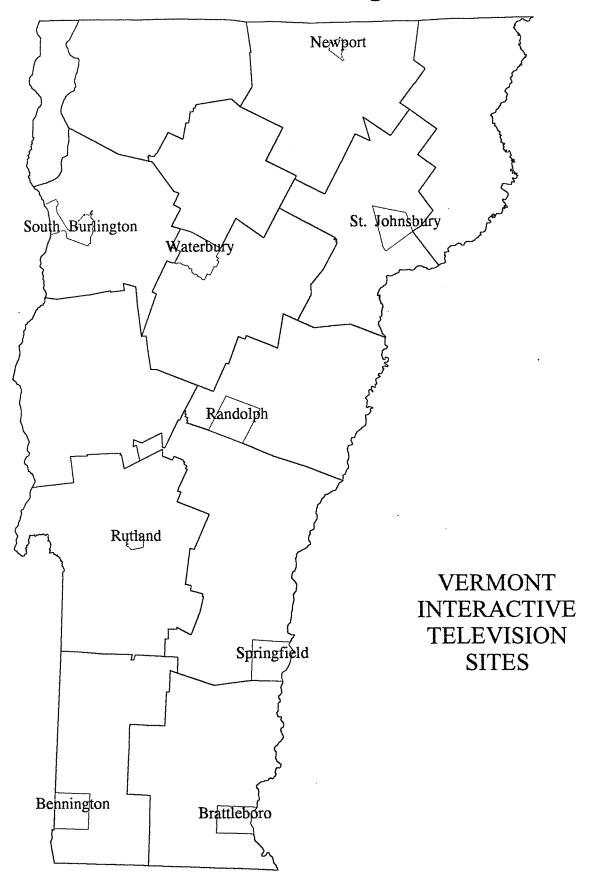

The SBDC Director's office is located at Vermont Technical College. Four area specialists are located in regional development corporation offices in Burlington, Rutland, Springfield, and St. Johnsbury and provide SBDC assistance in all regions of the state. The SBDC is primarily funded through a major grant from the federal Small Business Administration.

Through its initial start-up year of 1993, the SBDC provided 2,732 hours of business counseling, and trained 1,446 clients. In addition, the SBDC has been actively involved with Expo 93, The Vermont Export Council, veterans' business programs, the Small Business Network, and other technical assistance and support groups.
