Move Zoom Recordings to YuJa

To download a Zoom video from the Cloud to YuJa, login to your Zoom account, then go to Zoom.us > My Account > Recordings> find the right recording by date.

Tip: this process is easiest in one Chrome window with Zoom open in one tab and YuJa open in another tab

If you have never logged in to YuJa, go to https://vsc.yuja.com and click Login at the top right

Login Using: Vermont State Colleges Single-Sign-On ▾ | Login

1 Choose the Download button.
Do NOT choose copy shareable link, because that will bring users to the Cloud recording.

2 Multiple types of files will download, including .mp4, .mpa and .txt.

3 Log in to YuJa > go to the folder to which you would like to move the video > drag and drop the .mp4 file to the YuJa screen.

4 It will take a few moments to load. When it is done uploading, the video will appear in list. Hover the video and click More to rename, publish, and edit. Test the video.

5 If all is well, go back to Zoom and delete the file.

Recording 1
2 files   183 MB
